

MOCHAMMAD DZAHWAN FADHLOLY

081295800884 | m.dzahwan@gmail.com | linkedin.com/in/mochammad-dzahwan-fadhloly/
East Jakarta, DKI Jakarta

Computer Science graduate with experience in banking and enterprise IT environments, currently working as an IT Developer in a banking technology program. Experienced in developing and maintaining web-based applications, integrating backend services, and implementing reliable solutions using modern software development practices. Strong analytical and problem-solving skills, with exposure to application development, databases, machine learning, and Agile collaboration. Highly adaptable and motivated to contribute to technology-driven business transformation in the banking industry.

Work Experiences

PT CIMB Niaga Tbk - **Tangerang, Indonesia** Jul 2025 - Present

CIPTA IT Developer

- Develop and maintain enterprise web applications using React and TypeScript to support internal banking operations and business processes.
- Integrate REST APIs and backend services, implementing data validation and error handling to ensure reliable and stable application performance.
- Contribute to application development, debugging, functional testing, and issue resolution throughout the software development lifecycle.
- Collaborate with Backend Engineers, QA, Business Analysts, and other stakeholders in an Agile environment to deliver business solutions.
- Participate in end-to-end feature development, from understanding business requirements and implementing application features to testing and resolving issues.

PT Bank Syariah Indonesia Tbk - **Semarang, Indonesia** Jan 2024 - Feb 2024

Full Stack Web Developer Intern

- Developed a web-based mail archiving system using Laravel to improve internal document management and workflow efficiency.
- Implemented authentication, CRUD operations, and role-based access control to support secure data management.
- Designed and integrated application features across frontend, backend, and database components.
- Conducted functional testing, debugging, and issue resolution to improve system stability before deployment.

Diponegoro University - **Semarang, Indonesia** Feb 2024 - Jun 2024

Management Database Laboratory Assistant

- Guided students in applying relational database concepts, SQL queries, and database schema design using SQL Server Management Studio.
- Provided technical troubleshooting and academic support during laboratory sessions.
- Assisted students in understanding database implementation and solving technical problems effectively.

Bangkit Academy - **Remote, Indonesia** Feb 2024 - Jun 2024

Machine Learning Cohort

- Completed intensive training in Python, Machine Learning, Natural Language Processing, Deep Learning, and TensorFlow.
- Developed a machine learning solution to address a real-world operational problem through a team-based capstone project.
- Applied analytical thinking, Agile collaboration, and project management throughout mentor-guided development cycles.

Education

Diponegoro University - **Semarang, Indonesia** Aug 2021 - Mar 2025

Bachelor of Computer Science, 3.80/4.00

- Graduated in 3.5 years with a GPA of 3.80/4.00 (Cum Laude).
- Completed a bachelor thesis project developing an LSTM-based WTI crude oil price prediction model with hyperparameter optimization and Streamlit deployment.
- Served as Chairperson of the Annual Informatics Competition, Training & Education Division at HMIF UNDIP.
- Completed academic projects involving web application development, database management, and machine learning.

Organisational Experiences

Informatics Student Association of Diponegoro University - **Semarang, Indonesia** Feb 2022 - Feb 2024

Member of Education & Training Division

- Contributed to the planning and execution of Annual Informatics Competition, a national-scale IT event consisting of seminars,

training, and competitions.
- Supported Path of Informatics Research, a program introducing research and Student Creativity Program opportunities to new Informatics students.
- Contributed to the development of DMW++, a web-based academic resource containing question banks, solutions, and learning modules for Informatics students.

Annual Informatics Competition 2023 - Semarang, Indonesia Mar 2023 - Dec 2023

Chairperson

- Led the planning and execution of a national scale IT event consisting of seminars, training sessions, and competitions.
- Coordinated committee members, delegated responsibilities, and monitored event preparation to ensure successful program execution.

Path of Informatics Research 2023 - Semarang, Indonesia Aug 2023 - Nov 2023

Event Staff

- Supported the planning and execution of activities introducing research and Student Creativity Program opportunities to new Informatics students.
- Coordinated event activities and supported the implementation of sessions throughout the program.

Informatics Gathering 2022 - Semarang, Indonesia Aug 2022 - Dec 2022

Logistics Staff

- Supported the preparation and management of logistics and equipment required for the Informatics Gathering event.
- Coordinated with the committee team to ensure logistical needs were properly prepared and available throughout the event.

Annual Informatics Competition 2022 - Semarang, Indonesia Mar 2022 - Dec 2022

Vice Chairperson

- Assisted the chairperson in planning and coordinating the execution of a national-scale IT event consisting of seminars, training, and competitions.
- Coordinated committee members and supported cross-division collaboration to ensure smooth event implementation.

Skills, Achievements & Other Experiences

- **Final Project - Prediction of WTI Crude Oil Prices Using LSTM** (2025): Developed an LSTM-based machine learning model for WTI crude oil price prediction, applying data preprocessing, hyperparameter optimization, and model evaluation, and deployed the model as a Streamlit web application.
- **Bangkit Academy × BukitVista Project - Guest Request Management** (2024): Developed a machine learning classification model to categorize guest requests and support task prioritization, collaborating with Android and Cloud teams for mobile application integration.
- **Internship Project - Web Based Mail Archiving System** (2024): Developed a web-based mail archiving system during an internship at PT Bank Syariah Indonesia Tbk using Laravel, implementing authentication, CRUD operations, and role-based access control to improve internal document workflow efficiency and secure data management.
- **Course Project - Informatics Student Academic Information System** (2023): Developed a web-based academic information system using Laravel and MySQL, implementing authentication, student data management, grades, and course progress tracking, followed by functional testing and bug fixing.
- **Achievement - Top 3 Best CIPTA IT Developer Batch 5** (2026): Recognized among the Top 3 Best CIPTA IT Developers in Batch 5 PT CIMB Niaga based on overall performance and achievements during the program.
- **Achievement - Selected as Chairperson of Annual Informatics Competition** (2023): Selected to lead the organizing committee of a national-scale IT event, overseeing committee coordination and event execution.
- **Achievement - Best Member of Education & Training Division** (2022): Recognized as the Best Member of the Education & Training Division HMIF UNDIP for contributions and performance in supporting organizational programs and activities.
- **Certification - TOEFL ITP** (2026): Score: 557
- **Copyright Certificate — World Crude Oil Price Prediction Application** (2025)
- **Copyright Certificate — SIPS Web Based Mail Archiving System** (2024)
- **Certification - Machine Learning Specialization** (2024)
- **Certification - DeepLearning.AI TensorFlow Developer Specialization** (2024)
- **Hard Skills**: TypeScript, JavaScript, React.js, Node.js, Java, Python, PHP, Laravel, .Net, SQL, MySQL, Microsoft SQL Server, PostgreSQL, REST API, Git, Machine Learning, TensorFlow, Data Analysis, Functional Testing, Agile/Scrum, UI/UX, Figma.
- **Soft Skills**: Analytical Thinking, Problem Solving, Leadership, Communication, Team Collaboration, Time Management, Learning Agility, Adaptability, Attention to Detail.
- **Language**: Bahasa Indonesia and English
